

STORE. CALL. COMPLY.

A BETTER LAMP RECYCLING PROGRAM

FACILITY PREP CHECKLIST

Designate a storage area for boxes and/or drums

Record the total fluorescent lamp count for your facility

Decide frequency of lamp & e-waste recycling required for your facility

Document program & educate employees on best practices

WHAT ARE YOUR STORAGE NEEDS?

We'll pick up your spent lamps, batteries, electronics and drop off the exact number of boxes/drums you need to keep your facility neat, tidy, and safe from hazards.

(717) 898-8021

How often to schedule pick ups

SAFETY TIPS

- ✓ Immediately store spent lamps
- ✓ Don't tape lamps together
- ✓ Don't stand lamps against wall
- ✓ Keep storage room tidy
- ✓ Call for pick up to avoid accidents
- ✓ Keep employees informed

STEPS FOR CLEANING UP A BROKEN MERCURY LAMP

VENTILATE

Ventilate & secure the area to lower exposure rates

ASSESS

Determine the amount of mercury expelled

CLEAN

Use gloves, tape, mercury vacuum, zinc powder & eye droppers to clean

CONTAIN & CALL

Place all broken glass & clean up materials in a secure bag

Neat & Tidy Storage

Put your lamp recycling program on autopilot with the A1 Recycle Team. We never charge for pick up.
